

## Calculation: addition and subtraction

This is a game for 2 players.

You will need:

- a pack of playing cards.

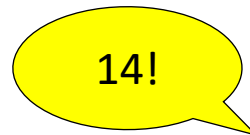

Remove the coloured cards (King, Queen, Jack), Joker cards and any card game rules which may have been included in your pack of cards.

Ace has a value of 1. Shuffle the cards well and then share them between the two players.

## Calculation: addition and subtraction

The children take turns to turn over one card each. The player who can successfully add the two numbers together, wins the cards.

The player with the most cards wins the game.

Vary the game by subtracting one number from the other.
