# Carlo's café

This is what food costs at Carlo's café.

1 burger and 1 tea cost £2.
2 fruit salads and 2 burgers cost £7.
1 fruit salad and 2 teas cost £3.

What must you pay in total for 1 burger, 1 fruit salad and 1 tea?
What does each item cost on its own?
Write your answer and bring it to school.

Solution: Carlo's café

One way to solve this puzzle is to add up all the given costs.
This is a total cost of £12 for 3 burgers, 3 fruit salads and 3 teas.

So the total cost of a burger, a fruit salad and a tea is £4.

From the first statement you can now work out that a fruit salad costs £2,
so a tea costs 50p and a burger costs £1.50.
