

You will need

someone to work with,  a coin  and a clock, 
 watch  or timer  to time one minute exactly.

Heads and tails

Your partner has to time one minute exactly. You have to spin the coin as many times as you can in one minute. Write down the numbers of heads and tails you get.

heads	tails

After exactly one minute, stop spinning the coin. Score 2 points for each head and 5 points for each tail.

Add up your score and write down the total.

Now repeat the activity.

You do the timing and your partner spins the coin.
