

# Knock out!

A game for two players.

You will need:

- two 1 → 6 spot dice
- a pencil for each player
- a number line for each player, from 2 → 12

Players take turns to roll both dice.

Each player adds the dice together.

If the sum of the dice is a number on their number line, they can cross the number off.

The winner is the first player to cross out all the numbers on their number line.
