

You will need

paper and pencils.

# Magic square

This is a magic square.

Each row, each column and each diagonal adds up to 34.

These numbers have fallen off the square:

4, 7, 10, 11, 12, 14, 15.

Write them in.

Each row, column and diagonal must still add up to 34.

16	3	2	13
5			8
9	6		
			1

### Hint

Make cards with the numbers on to help you try out the different combinations!
