

Reading book

Reading book

My reading book has 450 pages.

I've read 36 pages a day for 4 days.

If I continue to read at the same rate, how many more days will it take to finish the book?

Reading book

My reading book has 450 pages.

I've read 36 pages a day for 4 days.

If I continue to read at the same rate, how many more days will it take to finish the book?

$$36 \times 4 = 144$$

$$450 \text{ pages} - 144 = 306 \text{ pages left}$$

$$306 \div 36 = 8.5 \text{ days}$$

It took 9 days to finish reading the book.
