

Sweets

Sweets

Jason buys 4 sweets.

Joe buys double that amount.

How many sweets do they buy altogether?

Sweets

Jason buys 4 sweets.

Joe buys double that amount.

How many sweets do they buy altogether?

Jason has 4 sweets.

Joe has double that amount which is 8.

We need to know how much they have altogether.

We add 4 and 8 together to make 12.

They have 12 sweets altogether.
